

MATHEMATICA PANNONICA

24/1 (2013)

CONTENTS

FARLEY, J. D.: A problem attributed to Rado from Mirsky's 1971 Monograph <i>Transversal Theory</i> and a Conjecture from the 1982 <i>Proceedings of the American Mathematical Society</i>	3
PRVANOVIĆ, M. and PUŠIĆ, N.: Some conformally invariant tensors on anti-Kähler manifolds and their geometrical properties	15
RAJ, K., SHARMA, A. K. and SHARMA, S. K.: Some difference sequence spaces defined by Musielak–Orlicz function	33
DERKA, M., PYRIH, P. and VEJNAR, B.: Killing an end point with an open mapping revisited	45
YILMAZ, H. B.: On generalized semi-pseudo Ricci symmetric manifolds	55
MAXSON, C. J.: On singular algebras with composition	65
SZÁZ, Á.: An instructive treatment and some natural extensions of a set-valued function of Páles	77
CARPINTERO, C., RAJESH, N. and ROSAS, E.: New separation axioms in m -spaces	109
BRUNOTTE, H.: Unusual CNS polynomials	125
EVERS, K. and LESEBERG, D.: Erratum to "A new concept of convergence space" [Mathematica Pannonica 19/2 (2008), 291–303]	139
LÓCSI, L.: An inverse problem with compositions of Blaschke products	141
